EDUCATION AND TRAINING

B.Sc. in Computer Science

University of Management & Technology [Current]

City: Lahore | Country: Pakistan

Relevant Coursework: Object-Oriented Programming, Data Structures, Database Systems, Software Engineering

WORK EXPERIENCE

Largify Solutions Pvt. Ltd – Lahore, Pakistan

Mobile Application Developer Intern

[2026/04/01 – 2026/06/30]

- Developed **TaskFlow**, a native Android Personal Task Manager application using **Kotlin** and **Jetpack Compose**.
- Implemented **MVVM Architecture** with the **Repository Pattern** to ensure clean, maintainable, and scalable code.
- Integrated **Room Database** for local data persistence and full CRUD functionality.
- Built responsive user interfaces with **Material 3**, **Navigation Compose**, **StateFlow**, and **Kotlin Coroutines**.
- Collaborated in a professional development environment using **Git** and industry-standard Android development practices.

Technologies: Kotlin, Jetpack Compose, MVVM, Room Database, Navigation Compose, Kotlin Coroutines, StateFlow, Git

SKILLS

JetPack Compose / MVVM + Repository pattern / kotlin Programming / Github / AI automation

PROJECTS

[2026/06/01 – 2026/07/01]

TaskFlow — Personal Task Manager

- Developed a modern native Android task management application using **Kotlin** and **Jetpack Compose (Material 3)**.
- Implemented **MVVM Architecture**, **Repository Pattern**, **Room Database**, **Navigation Compose**, **Kotlin Coroutines**, and **StateFlow**.
- Designed features including task creation, editing, deletion, swipe-to-delete with undo, priority management, due dates, and real-time search/filtering.
- Built responsive UI with persistent local storage while following clean architecture and Android development best practices.
